Digipack

Pour son tout premier enregistrement, Marc Geujon a choisi les pages classiques du répertoire de la trompette, au tournant des XVIII<sup>e</sup> et XIX<sup>e</sup> siècles, avec des cadences inédites! Le concerto du compositeur français Christian Gouinguéné, écrit dans le plus pur style Mozartien, vient compléter ce répertoire puisque l'on sait que le divin Mozart avait écrit un concerto pour la trompette, hélas disparu.

*For his very first recording, Marc Geujon has chosen pieces from the classical repertoire for trumpet, from the end of the 18<sup>th</sup> century and beginning of the 19<sup>th</sup>, with exclusive cadenzas! The concerto by French composer Christian Gouinguéné, written in pure Mozart style, completes this repertoire, as we know that the great Mozart had dedicated a concerto to the trumpet, which one never found the trace of.*
